

Colleen Tara O'Laughlin

Colleen Tara O'Laughlin has worked for the U.S. Department of Energy for 10.5 years and is currently the Program Manager for the Consequence Management / Federal Radiological Monitoring and Assessment Center (CM / FRMAC) program at the DOE National Nuclear Security Administration (DOE / NNSA) Nevada Operations Office in Las Vegas. Colleen is currently serving on several of the DOE / NNSA Emergency Response Programs, including both Crisis and Consequence Response. She has participated in numerous radiological emergency response exercises and real world events. She serves on all of the FRMAC working groups: Health & Safety, Monitoring and Sampling, Analysis, and Assessment, and is the Operations Working Group Chair.
