

### Biography of Michael Philp:

I have a BS in Geographic Information Systems from Brigham Young University, (Dec 2000). I have been with the Maricopa County Department of Emergency Management in Phoenix, Arizona for three years as the GIS programmer / analyst. My focus is on applications of technology in emergency management with a particular emphasis on geographic information systems. I have developed several custom GIS based applications that are currently in use by multiple organizations in the region. Much of my time has been spent developing and enhancing applications used in support of Palo Verde Nuclear Generating Station. I am responsible for all dynamic mapping displays in the County Emergency Operations Center, and provide technical support to other state and county agencies.

### Toby Morales Emergency Response Coordinator:

Twenty-Three years with the Arizona Radiation Regulatory Agency (ARRA) Emergency Program; incident response 18 years, in charge of the Radiological Emergency Assistance Teams (REAT). Teams respond to Palo Verde Nuclear Generating Station or any other area in the state should a radiological incident occur.

Five years X-ray inspector with the ARRA. Conducted FDA inspections on x-ray equipment.

Radiological Technology Degree: Worked as a Special Procedures Technologist at Good Samaritan, Scottsdale and Doctor's Hospitals
