

2007 National Radiological Emergency Preparedness (NREP) Conference, Inc.

NEW REACTORS

General Session - Panel: May 03, 2007; 10:45a-11:45a

(DOE: 10 min; NRC: 15 min; DHS/FEMA: 10 min; State: 10 min; Q&A: 15 min)

Panelists: Kenneth Wade (DOE), Kevin Williams (NRC), Conrad Burnside (DHS/FEMA), Stephen Clark (State of GA)

SUMMARY:

Department of Homeland Security (DHS)/ Federal Emergency Management Agency (FEMA):

The FEMA Panel member will present a brief overview of the offsite plan review process used to establish plan sufficiency. The fundamentals of the FEMA-NRC memorandum of Understanding (MOU) and current statutory requirements that are in place to assist in providing findings of "reasonable assurance" to the NRC necessary for their licensing decision will be discussed. Presentation of the similarities between the formal '350' review process and the outcomes associated with the ESP/COL process will be made.
