

Biographical sketch of ROBERT E. KAHLER

Robert E. Kahler is the Team Leader of the US NRC Emergency Preparedness Inspection Team. Mr. Kahler has over 28 years of extensive experience in nuclear power encompassing the areas of emergency preparedness, PWR reactor operations, and licensed operator training. Currently, as the Team Leader of the Emergency Preparedness Inspection Team, he is responsible for maintaining oversight of the Emergency Preparedness inspection program of the reactor oversight process (ROP). As such, Mr. Kahler is extremely well-versed in the NRC's emergency preparedness program requirements and inspection activities for commercial nuclear power plants. Additionally, he has experience as an emergency preparedness manager at a commercial nuclear power plant providing him the industry's perspective. Mr. Kahler has a B.S. degree in mathematics, a B.S. degree in human resources, and a master's degree in business administration and extensive training and experience in adult education and public speaking.
